  - ▶▶ No charges between eProcurement Communities (SPs)
  - ▶▶ Common set of agreed identifier schemes
  - ▶▶ Limits the document types to those recognized by the Central and/or Regional Authority

The PEPPOL Transport Infrastructure Agreements provides governance for the PEPPOL Transport Infrastructure based on:

- ▶▶ a European wide coordination over all common components of the transport infrastructure by the PEPPOL coordinating authority
- ▶▶ a regional coordination and supervision of the implementation and use of the transport infrastructure within a domain by PEPPOL regional authorities
- ▶▶ open and transparent provision of SMP and AP services based on a common set of agreements as well as common definition of services and service levels by PEPPOL AP and SMP providers
