VIA* Strategy

PEPPOL
PAN-EUROPEAN PUBLIC PROCUREMENT ONLINE

▶▶ To create and maintain an community of validation service providers based an common specifications.

▶▶ The VIA provide templates to establish the contractual framework for the governance of the PEPPOL Validation Infrastructure (VI).

▶▶ Provides the cornerstones of cooperation within this community:

  ▶▶ Defines the responsibilities of the actors in the PEPPOL community

  ▶▶ Sets the valid version of the specifications

  ▶▶ Defines a common set of minimum service levels for the infrastructure

*VIA: Validation Infrastructure Agreements

The VIA provides governance for the PEPPOL Validation Infrastructure based on:

▶▶ a coordination of all validation services providers in the validation infrastructure by the PEPPOL coordinating authority and

▶▶ provision and maintenance of the PEPPOL Public Registry Service based on a common set of agreements as well as common definition of services and service levels by PEPPOL validation service providers.
